HDTV Display is not only a tool to display race results. It will revolutionize your visitors' experience!

Delight them with more useful information such as pre-race data, enhanced live timing, narrow casting and special 3D animations. This display software will also allow your karting center to make more money thanks to advertisements.

MORE POSSIBILITIES WITH...

- Timing software for live timing
- Point of Sale for pre-race information (drivers are called on the track via HDTV Display)
